
Telephone Unit - Assistant Manager/Supervisor

Posted by David Robinson - 2006/10/25 16:08

We are a pharma MR company based in the Surrey countryside.

The Assistant Manager's role is to assist the Telephone Unit & Field Manager in all aspects of her responsibilities, and to deputise in her absence.

Previous supervisory or management experience in Market Research, preferably within a Telephone Unit/Call Centre, is highly desirable and the initial short list will be drawn up from people with this background.

Knowledge of Excel is essential, as are good communication skills.

As our offices are not on a public transport route, it is also essential to have access to a reliable vehicle.

Salary is negotiable.

Please contact me (david@silverfern.co.uk / 01932 872053) for a full job description or send in your CV.

Thanks for posting this David,

It might also be worth adding this job to our full jobs system which will be available at the end of this week.

Please visit the site this Friday and you'll see it under "Jobs" on the top menu.

Best of luck with finding someone.

Thanks,

Danny
