Re:market research job vacancies in india

Posted by MRP Editor - 2006/07/17 21:03

Hi all,

In terms of market research vacancies in India have you tried approaching any individual companies?

Here in the UK we have specific market research recruitment consultancies who recruit market researchers. I'm not sure if India has the same?

One solution could be to ring some UK recruitment consultants who also cover jobs abroad - they might be able to help with India as well.

All the very best,

Danny

Re: Survey programming jobs ?

Posted by Varun Soni - 2006/09/10 11:50

Looking for Jobs in proprietary tool in confirmit. We are a group of programmers who are inetrested in any kind of survey programming work being outsourced to us. Below is my resume and current job profile.

VARUN SONI

176 Kailash Hills Near C Block Market East of Kailash New Delhi-65,India, 26840182(RES.)9899806303(M)
varun_soni2000@yahoo.com

Successful and experienced (Team Lead/SurveyProgrammer) with strong scripting and analytical skills seeks a challenging post to work.

CAREER ACHIEVEMENTS

Ø Team Lead responsible for the work flow of 11 scriptors. Project scope included working on (CONFIRMIT) and programming complexity Level 4/5 surveys. All applications deemed critical by the business units were scripted ahead of schedule, which resulted in significant savings for Greenfield.
Ø Early on during the application scripting/packaging, it was evident that robust standards and policies needed to be developed and followed for consistency. Due to my active contributions and input, an extensive application scripting and testing guidelines were developed, which was followed by all scripting staff globally. This resulted in standardized scripting and testing of all applications and significantly reduced training time for new developers and testers.
Ø Streamlined the QA process for testing the scripted applications by automating QA functions, training developers/scripters in QA requirements, quantifying rejections from the QA process and identifying common issues, which resulted in an efficient scripting by significantly decreasing re-scripting of applications.

PROFESSIONAL EXPERIENCE

Ø Day-to-day management of my team's activities involving many projects. Interfaced directly with the developers, business partners/managers and software vendors.
Ø Coordinate global efforts in the compatibility/functionality testing for all scripted application to ensure adherence to global standards and policies.
Ø Manage team members and activities to ensure project costs and schedules are properly estimated, controlled, and achieved.
Ø Demonstrate excellent verbal, written and interpersonal skills with proven ability to effectively interact with multiple business units globally.
Ø Appraise team member's progress to ensure scripted applications are delivered in a timely and efficient manner resulting in cost-effective scripts to business units.
Ø Impart training in online survey Programming tool (CONFIRMIT) to the team.
Ø Contribute both directly and indirectly to projects and support initiatives as needed to ensure success and mentor team

members.

- Ø Regularly assisted in troubleshooting complex scripted/package application
- Ø Proven ability to effectively manage the work load, effectively assign deliverables, and efficiently utilize the various skills set of each member of my staff.
- Ø Proactively seek and incorporate ideas and suggestions for improvement into the business application development process from stakeholders.
- Ø Repeatedly recognized by management and professional colleagues as an effective team player and an excellent independent contributor.

PROFESSIONALLY WORKED ON

Survey Programming Tool CONFIRMIT (A survey programming tool.)
Web Based Programming languages ASP. Pursuing ASP .net.
Authoring Tools DREAMWEAVER, Front Page.
Scripting Tools Java Script, Flash Script, Director Lingo.
Other Tools HTML, DHTML, Microsoft Excel
Programming Language C, C++.

QUALIFICATION

Educational qualification:

- Ø Schooling from Ramjas School R.K. Puram (CBSE BOARD DELHI).
- Ø Graduation from Jamia Millia Islamia B.COM (HONS.).
- Ø P.G.D.C.A. (Regular) from Jamia Millia Islamia, New Delhi.
- Ø Certificate in Computing from IGNOU, New Delhi.

Professional Qualification:

- Ø ADWEB (diploma in web engineering and multimedia) from STG International Limited.

EXPERIENCE AND ACHIEVEMENTS

Company : Greenfield Online Inc.(1st Floor, Unitech Trade Center,Sushant lok, phase-1, Gurgaon.)
Greenfield Online is a pioneer and leading provider of online research solutions. Greenfield Online is 100% dedicated to servicing the needs of research companies and is the leading provider of online data collection services. Uptill now Greenfield online has conducted more than 1 million online interviews with panel of 1.7+ million member households.
www.greenfieldonline.com
Period: (Aug. 2003 – till date)
Role: Working as Team Lead (Design and Development)

Ø At Greenfield Online I was introduced to market research environment. It resulted in transition from a web developer to Survey Programmer to Sr.

Survey programmer to Team Lead.

Ø I was also trained in online survey Programming tool (CONFIRMIT) from trainers in the US.

Ø I was involved in directly interacting with the client's. Analysing their needs and requirements and preparation of online questionnaires in consultation with Project Directors.

Ø My job profile also included programming level 4 and level 5 complexity surveys and ensuring that the data has been captured correctly and sending the deliverables for data processing.

Ø I also gained experience in online marketing research by interacting with experienced research team members, many of whom have spent 15 years or more in the marketing research industry.

Ø Also, I was introduced to the BPO working environment and culture and worked in shifts. (Greenfield online works 24x7). Which enlivened a sense of camaraderie and co-ordination in me.

Ø Some of the Clients for whom I have worked for are: Microsoft, Invoke Solutions, Directive Analytics(DIR), Arbour Strategy Group, TNSI, C&R Research, Consumer Insights Inc, Direction for Design, ASI, Open Venue e-Research Solutions, Clarion Research Inc., Decision Insight, Lieberman, Ashcraft Research Inc, Wirthlin, Data development Corp, Copernicus, BMR, Protocol Research Solutions, Grey Healthcare, Teliphia, Landis Strategy and Innovation, Synovate, Diagnostic Research International.

Type of Studies/Projects Undertaken in Greenfield Online

I have been involved in programming following tasks for the clients mentioned earlier.

Also, I am involved in troubleshooting and debugging the codes of other survey programmers

Ø Quick Turnaround jobs or Level1 or 2 surveys

Email Captures

Email captures are quick turnaround jobs. In these jobs as the name suggests we redirect greenfieldonline panelists from our survey to take the clients survey if they satisfy the criterion mentioned by client. For e.g. if the client wants only people from dallas then people who click dallas will only be redirected to clients survey. In these type of jobs we take advantage of huge and loyal panelists database of greenfield.

OmniBus

In omnibus jobs the client wants to get the survey conducted throughout the length or breadth of US and get the feedback very soon. It has a set format in which quotas need to be set for each particular region and questions have to be programmed as per the client.

Ø Level 3,4 and 5 complexity surveys

HealthCare

These surveys are programmed for healthcare professionals for getting their opinion on e.g. a particular drug. The surveys have re-entry script which facilitates the panelists to start from where he had left in his previous attempts. The surveys are developed keeping in mind the time constraints of a healthcare professional.

Programming and host

These surveys are programmed for specific clients who require hosting and Programming capabilities of Greenfieldonline but have panelists of their own. The questionnaires are mostly forwarded from other MR companies who either find the surveys too difficult to develop or are short on resources part.

Full Length Surveys

These surveys are similar in nature to Programming and host but only greenfieldpanelists take these surveys. A full length survey generally takes around a week to develop and deliver. These surveys are generally tricky and do involve a lot of brainstorming before starting on actual project. They also involve a lot of client and Project Directors interaction with programmer for clarification on various points.

Tracking Studies

These studies are programmed for collecting data for a period of time and judging the various reflections in consumer attitude or behaviour for that period. The survey programmed in these studies generally is for a particular quarter and data is delivered to the client at the end of quarter. Each quarter is called a WAVE and once a wave finishes client makes certain revisions to original questionnaire e.g. introduces new products and programmer has to revise the survey keeping in mind its affect on layout and data deliverables. Also tracking studies are programmed differently keeping in mind the hidden punches to be left for future brands etc.

PERSONAL DETAILS

Ø DATE OF BIRTH :27TH NOV 1977

Ø MARITAL STATUS :MARRIED

Ø CONTACT NO. :9899806303 (M),26840182(RES.)

Ø LANGUAGES KNOWN :Speaking and Writing Proficiency in English & Hindi

PLACE:(New Delhi) (VARUN SONI)

varun_soni2000@yahoo.com

Successful and experienced (Team Lead/SurveyProgrammer) with strong scripting and analytical skills seeks a challenging post to work.

CAREER ACHIEVEMENTS

- Ø Team Lead responsible for the work flow of 11 scriptors. Project scope included working on (CONFIRMIT) and programming complexity Level 4/5 surveys. All applications deemed critical by the business units were scripted ahead of schedule, which resulted in significant savings for Greenfield.
- Ø Early on during the application scripting/packaging, it was evident that robust standards and policies needed to be developed and followed for consistency. Due to my active contributions and input, an extensive application scripting and testing guidelines were developed, which was followed by all scripting staff globally. This resulted in standardized scripting and testing of all applications and significantly reduced training time for new developers and testers.
- Ø Streamlined the QA process for testing the scripted applications by automating QA functions, training developers/scripters in QA requirements, quantifying rejections from the QA process and identifying common issues, which resulted in an efficient scripting by significantly decreasing re-scripting of applications.

PROFESSIONAL EXPERIENCE

- Ø Day-to-day management of my team's activities involving many projects. Interfaced directly with the developers, business partners/managers and software vendors.
- Ø Coordinate global efforts in the compatibility/functionality testing for all scripted application to ensure adherence to global standards and policies.
- Ø Manage team members and activities to ensure project costs and schedules are properly estimated, controlled, and achieved.
- Ø Demonstrate excellent verbal, written and interpersonal skills with proven ability to effectively interact with multiple business units globally.
- Ø Appraise team member's progress to ensure scripted applications are delivered in a timely and efficient manner resulting in cost-effective scripts to business units.
- Ø Impart training in online survey Programming tool (CONFIRMIT) to the team.
- Ø Contribute both directly and indirectly to projects and support initiatives as needed to ensure success and mentor team members.
- Ø Regularly assisted in troubleshooting complex scripted/packaged application
- Ø Proven ability to effectively manage the work load, effectively assign deliverables, and efficiently utilize the various skills set of each member of my staff.
- Ø Proactively seek and incorporate ideas and suggestions for improvement into the business application development

process from stakeholders.

Ø Repeatedly recognized by management and professional colleagues as an effective team player and an excellent independent contributor.

PROFESSIONALLY WORKED ON

Survey Programming Tool CONFIRMIT (A survey programming tool.)

Web Based Programming languages ASP. Pursuing ASP .net.

Authoring Tools DREAMWEAVER, Front Page.

Scripting Tools Java Script, Flash Script, Director Lingo.

Other Tools HTML, DHTML, Microsoft Excel

Programming Language C, C++.

QUALIFICATION

Educational qualification:

Ø Schooling from Ramjas School R.K. Puram (CBSE BOARD DELHI).

Ø Graduation from Jamia Millia Islamia B.COM (HONS.).

Ø P.G.D.C.A. (Regular) from Jamia Millia Islamia, New Delhi.

Ø Certificate in Computing from IGNOU, New Delhi.

Professional Qualification:

Ø ADWEB (diploma in web engineering and multimedia) from STG International Limited.

EXPERIENCE AND ACHIEVEMENTS

Company : Greenfield Online Inc.(1st Floor, Unitech Trade Center,Sushant lok, phase-1, Gurgaon.)

Greenfield Online is a pioneer and leading provider of online research solutions. Greenfield Online is 100% dedicated to servicing the needs of research companies and is the leading provider of online data collection services. Uptill now Greenfield online has conducted more than 1 million online interviews with panel of 1.7+ million member households.

www.greenfieldonline.com

Period: (Aug. 2003 – till date)

Role: Working as Team Lead (Design and Development)

Ø At Greenfield Online I was introduced to market research environment. It resulted in transition from a web developer to Survey Programmer to Sr.

Survey programmer to Team Lead.

Ø I was also trained in online survey Programming tool (CONFIRMIT) from trainers in the US.

Ø I was involved in directly interacting with the client's. Analysing their needs and requirements and preparation of online questionnaires in consultation with Project Directors.

Ø My job profile also included programming level 4 and level 5 complexity surveys and ensuring that the data has been captured correctly and sending the deliverables for data processing.

Ø I also gained experience in online marketing research by interacting with experienced research team members, many of whom have spent 15 years or more in the marketing research industry.

Ø Also, I was introduced to the BPO working environment and culture and worked in shifts. (Greenfield online works 24x7). Which enlivened a sense of camaraderie and co-ordination in me.

Ø Some of the Clients for whom I have worked for are: Microsoft, Invoke Solutions, Directive Analytics(DIR), Arbour Strategy Group, TNSI, C&R Research, Consumer Insights Inc, Direction for Design, ASI, Open Venue e-Research Solutions, Clarion Research Inc., Decision Insight, Lieberman, Ashcraft Research Inc, Wirthlin, Data development Corp, Copernicus, BMR, Protocol Research Solutions, Grey Healthcare, Teliphia, Landis Strategy and Innovation, Synovate, Diagnostic Research International.

Type of Studies/Projects Undertaken in Greenfield Online

I have been involved in programming following tasks for the clients mentioned earlier.

Also, I am involved in troubleshooting and debugging the codes of other survey programmers

Ø Quick Turnaround jobs or Level1 or 2 surveys

Email Captures

Email captures are quick turnaround jobs. In these jobs as the name suggests we redirect greenfieldonline panelists from

our survey to take the clients survey if they satisfy the criterion mentioned by client. For e.g. if the client wants only people from dallas then people who click dallas will only be redirected to clients survey. In these type of jobs we take advantage of huge and loyal panelists database of greenfield.

OmniBus

In omnibus jobs the client wants to get the survey conducted throughout the length or breadth of US and get the feedback very soon. It has a set format in which quotas need to be set for each particular region and questions have to be programmed as per the client.

Ø Level 3,4 and 5 complexity surveys

HealthCare

These surveys are programmed for healthcare professionals for getting their opinion on e.g. a particular drug. The surveys have re-entry script which facilitates the panelists to start from where he had left in his previous attempts. The surveys are developed keeping in mind the time constraints of a healthcare professional.

Programming and host

These surveys are programmed for specific clients who require hosting and Programming capabilities of Greenfieldonline but have panelists of their own. The questionnaires are mostly forwarded from other MR companies who either find the surveys too difficult to develop or are short on resources part.

Full Length Surveys

These surveys are similar in nature to Programming and host but only greenfieldpanelists take these surveys. A full length survey generally takes around a week to develop and deliver. These surveys are generally tricky and do involves a lot of brainstorming before starting on actual project. They also involve a lot of client and Project Directors interaction with programmer for clarification on various points.

Tracking Studies

These studies are programmed for collecting data for a period of time and judging the various reflections in consumer attitude or behaviour for that period. The survey programmed in these studies generally is for a particular quarter and data is delivered to the client at the end of quarter. Each quarter is called a WAVE and once a wave finishes client makes certain revisions to original questionnaire e.g. introduces new products and programmer has to revise the survey keeping in mind its affect on layout and data deliverables. Also tracking studies are programmed differently keeping in mind the hidden punches to be left for future brands etc.

PERSONAL DETAILS

Ø DATE OF BIRTH :27TH NOV 1977

Ø MARITAL STATUS :MARRIED

Ø CONTACT NO. :9899806303 (M),26840182(RES.)

Ø LANGUAGES KNOWN :Speaking and Writing Proficiency in English & Hindi

PLACE:(New Delhi) (VARUN SONI)

Re:market research work on SAS, SPSS and Quantum

Posted by MM - 2007/07/20 17:55

Was just wondering if someone wants to outsource complex marketing research/ modeling work to our team. We are group of 15 Data Processing Professionals having extensive knowledge in Market Research. At present we provide are experts in SPSS, SAS, Quantum and Charting work (Report Creation).

Re:market research job vacancies in india

Posted by Muks - 2007/07/28 00:38

Manish, answer for your question is WNS at Pune, India.

Re:market research job vacancies in india

Posted by Mahesh Salian - 2007/07/28 06:07

Hello,

Myself Mahesh I am working with ACNielsen as a operation executive. I have 3.2 years of Market Reserach Experience. Working in Quantum, Quanvert and SPSS.

I want to know whether this is a freelancing job or a company. As I am intersted in freelancing job, could you please let me know more details about you.

Thanks and best regards,
Mahesh Salian

Re:market research job vacancies in india

Posted by bits - 2007/07/31 16:12

Hi rom,

Please tell me some gud companies in Spss tool like mr intervoiew/dimensions. I knew abt annik,exevo,ugam

please tell me some other companies. I have already worked in GFOI. one of the leading MR.

Please help me out....

=====

Re:market research job vacancies in india

Posted by rom - 2007/08/02 06:17

bits,

someone else has also mentioned WNS. as far as i know, ugam & wns are established players. judging from the extensive use of SPSS Base for DP work in India, i'm sure mr interview/dimensions will be adopted bt more and more companies. the other big one is confirmit.

and if you are good with any survey programming platform, learning any new language/tool is be very easy.

one more things is that i don't see much growth or challenges in survey programming. it remains very much like any BPO process, and gets treated like one too - low pay, night shifts, hectic long working hours, etc.

i was and still am, a very good survey programmer but i voluntarily came down 2 levels to enter the field of analytics. the pay is higher, and the work is more interesting and challenging.

market research job vacancies in india

Posted by charu chandra tiwari - 2007/08/20 08:42

Hello,

I would be interested in joining your Group/Team.
i am working as a Data Analyst in Delhi.i have Knowledge of
Survey Programming tool Confirmit at beginner Level.
i have completed MCA in 2006 batch with 73% From U.P.Tech Lucknow.
i am looking for the opportunity in Survey Programming.
if you have any knowledge please let me know.
i have attached my resume

OBJECTIVE

§ I intend to work in a challenging atmosphere where I get opportunity to learn and develop my technical skills and make best use of it for the growth of organization and establishing myself.

Work Experience

- Working With the “Annik Technology Services”, Gurgaon an ISO-27001 Certified, Up Growing Market Research Company.

Project Name: Tec world (IT Channel),
Team Size : 5
Client : National Purchase Diary (NPD), USA.

Project Description: In this project, our team responsibility is to maintain the database of our client by using customized tools & SQL queries. We keep our client's database alive by taking various actions (i.e. Add, Match, Inactivate, Move to Other Business, Delete) against the exceptions which we receive on weekly basis. We have to finish these exceptions weekly to meet the monthly deadline.

Role/Responsibility:

1. Direct interaction with the client in USA to resolve various issues.
2. Managing my team to meet the monthly deadline.
3. Exception resolving.
4. Dedicated towards improving the Quality of the Data in context of time.

Project Worked on: OSR, US-Distt, Back Data.

TECHNICAL SKILL

PROGRAMMING LANGUAGES : C++, Core Java

- H.S.C (1997) from GIC Ramgarh Nainital,U.P.Board with 63%.

ADDITIONAL QUALIFICATION

- One Year Certification in Information Technology (2001) from Kumaun Uni. Nainital with 60%.
- Certification In Computing (2003) from IGNOU with 66%.

Project Undertaken

Ø Developed software "Leave Management System" for NTPC NOIDA.

Duration : 6 months (1st Feb. 06 to 12 August 06)

Team Size : 4

Environment: Windows XP, SQL, J2EE (Servlet, JSP), Java Script, HTML, Tomcat 5.0

Description: It is a module of software "E-DESK" running in the intranet of the NTPC Noida. It has been specifically designed keeping in view smooth functioning of a organization in the absence of any employee. The salient feature of the module is that the work of the employee proceeding on leave is assigned to the nominee that is another employee of the organization .The work can be assigned to one or more employee depending upon quantum and nature of work. The software is successfully running in the intranet of NTPC.

Role : coding, testing.

Ø Developed Software "Search engine for Remote Sensing Management System" for Indian Institute Of Remote Sensing (IIRS) Dehradun in GIS.

Duration : 2 Months (6th June 05 to 31st July 05)

Team Size : 2

Environment : Windows XP, MS-Access, J2EE(Servlet, JSP),HTML ,Java Script , Tomcat 5.0

Description : This is mainly a website developed for intranet of the organization .with the help of this site the user can browse the information related with the project undergoing in the various departments.

STRENGTHS

- Willing to learn and adapt to new challenges.
- Willing to take ownership and responsibilities.
- Self-motivated, very quick learner and team player.
- Excellent work ethics.

HOBBIES

- Writing Stories, Listening Music, Traveling.

OTHER ACTIVITIES

- Won first price in story writing in Kumaun University Nainital (2001-02).
- Actively participates in college functions.
- Participate in "Run for Humanity "conducted by UNESCO.
