Hi Ankur

How are you? I saw your message here on Market Research Portal. I have a client in NYC looking for a CONFIRMIT Programmer with 4+ yrs exp. Even though I know you only have 1 yr experience I would like to start a dialogue. Please email me directly at amusco@comcast.net with your resume in word format and I can reply with a job description.

Thanks - look forward to hearing from you!

Anthony

Confirmit Survey Programmer

Posted by Archana More - 2008/05/05 19:39

Hi,

Saw this post. I have a strong programming background. I am looking for programming contracts using Confirmit. Does anyone have an insight?

Thanks,
Archana

Hi Archana,

We are looking for a freelance ConfirmIT programmer to help us with our projects. I work for a company called pureprofile. One of our core businesses is online research. Could you please let me know if you would be interested in doing freelance work for us. If so please send me your contact details and I would like to have a chat with you. This is our web address just in case you want to see what we do...

www.pureprofile.com

Thanks,
Umanag

Posted by neeru - 2008/06/19 14:34

Hi Umanag,

I have looked into your requirement and also checked your website as well. We are a group of individuals who do freelance programming work in Confirmit, mrInterview for some companies. This opportunity looks good to me.

Can you drop me an email at neerudheri@yahoo.com so that we can have a call and chat further about it.

Thanks,
Neeru

Re:Confirmit Survey Programmer with 1+ experience

Posted by Balig - 2008/12/20 20:07

Hi All,

Please use the below link and register yourself for any technical question regarding Confirmit:

<http://www.sipensys.com/Register.aspx?ReturnUrl=http%3a%2f%2fwww.sipensys.com%2fCommunity%2fForums.aspx>

Registering will take hardly 5 mins.

You can learn from beginning and can become master of Confirmit. What you have to do is, go to "Support Tab" or "Community Tab" and then enter into "Confirmit Programming" Forum and then you can ask your questions and see the questions posted by other users and also can see their respective answers given by other users.....Thanks!!

Posted by rmex_atl - 2012/01/31 21:21

I'm still learning how to program, but I'm pretty good at the basics. Any advice for someone like me to be considered for a position like this?
