
FIELD CONTROLLER TRAINING

Posted by Elle - 2006/05/09 15:17

I am interested in becoming a field controller - but I can not seem to find any courses - how do you become a field controller - do courses exist for this position?

Hi Elle,

I'm not sure about that. I would imagine some must exist but I know a lot of agencies offer 'in-house' training - so with these it's a case of sending in your CV and applying.

You should try the MRS or BMRA they run various training courses and will be able to help you further.

Hope this helps, best of luck,

Danny
