
Open end Coding – Opportunity

Posted by nithin3453 - 2010/03/22 11:25

Hi,

I have 6 years of Business and Market Research experience. 2 years in Open end coding using Excel and Ascribe using client's user license. I can deliver 3000 codes per day provided codes frames designed by the client.

I have a strong background on Marketing/Market Research background with quality like hardworking, self-motivated and reliant, capable, and able to get the job done efficiently in the least possible time.

I would like to request you to outsource open end coding. We have a team of 8 members. All of them are experienced in open end coding using Ascribe and excel.

- Ø Developing code frames and code lists
- Ø Coding Open Ends and Other Specify
- Ø Deliverables that suits client's ad-hoc requests

Please provide me a trial project and check my quality and timeliness. The cost is very less when compare to other coding team.

Thanking you in anticipation.

Awaiting for your positive response, eagerly.
