
Data on ethical fashion

Posted by befecadu - 2010/12/08 15:41

I am running a market analysis on Ethical Fashion/clothing for the ITC. I was wondering if any one in the Forum know how to find those data.

Thanks

Hey,

I'm researching ethical consumerism in general and found reports of the Cooperative Bank, Minte, the Boston Consulting Group and the Ethical Consumer Research Association Ltd. very useful. You find them on their websites or via databases.

Thank you Lead!

However, are this reports for for free?

In the case of Mintel you have to buy the report.

How did you get the access for the databases?
