validation

Posted by hope2011 - 2011/05/20 13:17

Hi there,

I registered 5-18-11, and it shows as my company not yet being validated. It says to contact admin. I would like to know if other companies can look me up here.

Help would be greatly appreciated.

Thanks,

==========

Hi Hope2011,

I responded to your email on 20/05 and also sent a separate email on 25/05 about this.

When a company adds their details to the site, they need to be validated by admin, this is not a free service as you can see from the email I sent to you.

If you or anyone else reading this would like any further information on this subject then please feel free to email me at editor@marketresearchworld.net and I can answer any queries.

Thanks
Jo
