Swamp, the digital marketing arm of Brahm, is celebrating after receiving some of the most prestigious accolades in the digital industry.

Revolution Magazineâ€™s Agency Rankings 2007 is a huge survey based on feedback from the UKâ€™s biggest brands. Swar has achieved first place in three categories including the coveted â€˜Return on Investmentâ€™ and â€˜Creativityâ€™ league tab

In the overall UK Top Ten Digital agencies league table, Swamp has been awarded third place - a hugely significant achievement for a non-London agency.

Throughout the results Swamp has consistently beaten bigger digital agencies and as the rankings are based on client feedback rather than judgesâ€™ opinions, the results are the most credible in the industry.

Over 500 client marketers from national and international brands participated in the survey. And Swampâ€™s success has not stopped there. The team has also recently won national awards for its work on Horlicks and Quorn and was awarded The Grocerâ€™s GRAMIA Online Agency of the Year for the second year running.
