

APC Consolidates Position As No.1 UPS Supplier

Contributed by IMS Research
Thursday, 26 May 2005

American Power Conversion (APC) achieved an impressive 28.6% share of the global uninterruptible power supply (UPS) market in 2004, according to IMS Research's latest study on the world UPS market.

APC is best known for its low-power protection for servers and workstations and managed to maintain its stranglehold on the world
