## What is Deliberative Research? As explained by DJS Research

Deliberative Research .Â ThisÂ can also be known as a Citizensâ€™™ JuryÂ andÂ Â is a longer, moderator-ledÂ Â eventÂ comm lasting a day or more, where an issue can be explored in greater detail and complexity than would be the case with a normal focus group.Â Â Such workshopsÂ are frequently usedÂ where a target audience is taken through a broader set of arguments and where a wider range of evidence is presented than would be the case under the shorter format.Â Â Typically, a Deliberative Research Workshop may containÂ video, audio andÂ real life situations and enables researchers to find out how group members react to an extended workshop with more varied and complex stimuli.
