Announces that majority of the hiring will be in its Coimbatore office

Ugam Solutions Pvt. Ltd., a leading provider of marketing decision support solutions including market research operations, advanced analytics and online marketing services to global organizations, plans to increase its workforce in India by 30 % for the year ending March 2012.

The majority of the hiring will be in its operations at Saravanampatty in Coimbatore in Southern India, which will lead to almost doubling the current strength at this location within a yearâ€™s time.

"On the occasion of the second anniversary of our Coimbatore office today, it gives me great pleasure to announce that we plan to add around 350 employees by the end of this year in this office," said Sunil Mirani, Chief Executive Officer, Ugam Solutions.

â€œSince the last few months, we are seeing an even stronger demand for our services from the retail, enterprise, healthcare, and IT sectors. The increase in our operational staff is to provide efficient service to our clients across the globe. Coimbatore is a good location with many educational institutions, diverse skill-sets and low attrition; as such, we think itâ€™s the best place for growing our workforce.â€•
