Wednesday, 26 October 2011

Red Herring recognized Ugam Solutions as a winner for its Top 100 Asia award. This award is given in recognition of the leading private companies from Asia, celebrating these companiesâ€™ innovations and technologies across their respective industries.

â€œChoosing the companies with the strongest potential was by no means a small feat,â€• said Alex Vieux, publisher and CEO of Red Herring. â€œAfter rigorous contemplation and discussion, we narrowed our list down from hundreds of candidates from across Asia to the Top 100 Winners. We believe Ugam Solutions embodies the vision, drive and innovation that define a successful entrepreneurial venture. Ugam should be proud of its accomplishment, as the competition was very strong.â€•

Red Herringâ€™s editorial staff evaluated the companies on both quantitative and qualitative criteria, such as financial performance, technology innovation, management quality, strategy, and market penetration. This assessment of potential is complemented by a review of the track record and standing of startups relative to their sector peers, allowing Red Herring to see past the â€œbuzzâ€• and make the list a valuable instrument of discovery and advocacy for the most promising new business models in Asia.

Commenting on this achievement, Sunil Mirani, Chief Executive Officer, Ugam Solutions said,
â€œWe are extremely proud to have been selected as a winner of the prestigious Red Herring Top 100 Asia Award. This award is testimony to our growth and innovative prowess in the industry. This special recognition from among our industry peers brings in a new level of confidence for us to perform better and continue to deliver world-class solutions for the industry."
