

SCAM WARNING

Contributed by Jo Hill
Monday, 07 November 2011

Please be made aware that a US based company is using the name DJS Research Ltd to contact people offering them research work, sending a cheque and getting the receiver to bank the cheque, and do what looks like two surveys.

One of which is western Union, the other is a Retail Shop Survey.

This is a scam!!! DJS Research never approach people to do this kind of survey nor do they send cheques prior to working for them.

DJS Research is a UK only based company and the sister company to Market Research World.

Unsure of an email that you have had from a company then check out the said company first, if they are for real they will be easy to find and don't approach you with work, they advertise it for you to approach them.

If you receive any emails with offers that look too good to be true, ignore them because they probably are.

Please ignore any emails or mailings from DJS Research Ltd from the US.

If you need any further assistance regarding this subject please feel free to email me at editor@marketresearchworld.net
