Tuesday, 03 April 2012

We would like to take this opportunity in welcoming two new starters at the company...

Richard Slater, Finance and HR Manager. Richard is a fully qualified Accountant and has worked as an Auditor and Financial Accountant for 15+ years. Richard will play an integral part in helping us to grow and take the business forward.

Annie Young, Trainee Research Executive. Annie joins us as a graduate having achieved a BSc in Sociology and a Masters in Social Policy and Social Research. Annie will initially support other researchers in helping to deliver both qualitative and quantitative projects.

We would also like to announce and congratulate Charlotte Sykes who has been promoted to Senior Research Executive and Alex Noden who is now a Research Executive...

Charlotteâ€™s hard work and dedication in her first 6 months has led to her promotion. In addition to her invaluable language skills, Charlotte has taken to the new challenge of qualitative research fantastically, managing projects, moderating groups and presenting to clients. She has also built on her existing quantitative background and proven to be an effective project manager. Â

Alex Noden has been promoted to Research Executive in recognition of her continual development and diligence towards the work that she undertakes. Since coming on-board to the research team Alex has demonstrated a natural skill for research and a strong desire and genuine interest to learn more and develop her research career.

We wish the new starters and Charlotte and Alex all the best and look forward to seeing them develop further in the future.
